

Environmental Policy

We, Home Republic Ltd (7907396 UK), recognise that our operations have a direct impact on the environment. We aim through our environmental policy to consider the environmental implications of our activities and to actively seek the cooperation of clients, subcontractors, suppliers and our employees in minimising the adverse effects of our operations.

To achieve these objectives, we will:

- Comply with all relevant environmental legislation, and in the absence of legislation, adopt sound environmental practices.
- In liaison with neighbours, take all reasonable steps to minimise nuisances such as parking, noise, light and other forms of pollution.
- Take all reasonable steps to enhance the local environment, protecting wildlife and plant life during the construction process.
- Ensure the efficient use of resources and the effective control of waste.
- Take all reasonable steps to conserve the use of energy and water.
- Minimise our vehicle movements and encourage the use of environmentally friendly forms of transportation.
- Develop environmental awareness and promote cooperation amongst our employees.
- Advise our clients and their advisers of sustainable construction alternatives where appropriate.
- Use subcontractors and suppliers with sound environmental practices proven by written policies.
- Review our policy annually and continually seek to improve performance by regular monitoring.
